Subject: CPAI OOOOa AMR letter

Good Morning Kelly,

I tried calling Madonna this morning, but her message stated she was out of the office until January 3rd. I'm hoping to get a status update on the EPA's rejection letter which was to be sent to CPAI in response to our NSPS subpart OOOOa Alternative Monitoring Request (AMR) letter which was submitted to the EPA on August 31, 2017.

From my previous talks with Madonna, it was my understanding the EPA intended to deny our request. Upon receiving the denial letter from EPA, CPAI would have 30 days to supply additional information to the EPA for reconsideration.

To date, CPAI has not received the denial letter. I checked in with Madonna approximately three weeks ago on the status, and was told it was being reviewed by legal. I tried calling Madonna last week for another status update, left a message, and have not received a response. I would like a status update as soon as possible, as we are now in a time where compliance with the OOOOa rule as written is practicably unachievable due to the technological constraints of the instrumentation required to be used.

Thank you for your help.

Regards,
Laura Kay Perry
